BEYOND FRAGRANCE

THE DEEPER TENSION

Gen Z and Millennials are facing a "Loneliness & Anxiety Epidemic." They are looking for beauty products that do more than just make them smell good they want products that regulate their emotional state.

THE CONCEPT

The Scent Intelligence Layer now includes "NeuroMapping." We don't just ask about your "ideal Sunday"; we ask, "What is your mind's current weather?" (Anxiety, Brain Fog, Restlessness).

The "Wake Up Call"

The Conversation is Happening. But No Brand is in the Room.

The fragrance world has shifted. Discovery is no longer happening at the perfume counter it’s happening in the palm of the consumer’s hand.

- #PerfumeTok: 10 Billion+ Views.
- r/Fragrance: 800k+ Active Curators.

Consumers are now the experts reviewing, layering, and recommending at an unprecedented scale. They are searching for a vocabulary the industry hasn’t provided yet. Project AURA is the bridge.

THE SOLUTION

Using L'Oréal's R&D in Aromachology (the science of scent’s effect on the brain), we recommend scents with functional notes:

- Sandalwood/Vetiver for grounding during anxiety.
- Citrus/Peppermint for cognitive focus and clarity.
- Lavender/Vanilla for cortisol reduction.

Consumers Already Use Fragrance for Wellness. No Luxury Brand Has Claimed This Territory.

WHEN YOU SPRAY A PERFUME IN-STORE, THE FIRST THING THAT HITS YOU ISN'T THE FRAGRANCE — IT'S A SHARP BURST OF ALCOHOL

- THE TRUE SCENT (HEART NOTES) APPEARS MUCH LATER
- NOSES FATIGUE AFTER A FEW TRIALS
- CUSTOMERS DECIDE BEFORE THE FRAGRANCE FULLY REVEALS ITSELF

WHAT'S THE SOLUTION?

CERTAIN AROMAS ARE KNOWN TO CALM ANXIETY, IMPROVE SLEEP, REDUCE STRESS, SUPPORT FOCUS, AND STABILIZE MOOD. DESPITE THIS, THE FRAGRANCE INDUSTRY: DOES NOT ACCOUNT FOR INDIVIDUAL NEUROLOGICAL NEEDS SEPARATES MENTAL WELL-BEING FROM SCENT DISCOVERY AND CUSTOMERS DON'T KNOW WHICH SCENTS CALM THEM OR EMPOWER THEM

THE DISCOVERY & PURCHASE PROBLEM

Key Insights
60% of consumers discover fragrances by sampling in-store — still the #1 method
57% of consumers across 30 countries prefer to see, touch, and feel a product before buying
88% of perfume users say the scent itself is the #1 purchase factor — but you can't smell it online
The inability to test perfumes is cited as the major drawback of online fragrance shopping
45% of consumers stick to 1–2 repurchased scents; 36% want to experiment but lack tools to discover confidently
33.6% of consumers now seek unique fragrance combinations — up from 24.9% just one year prior
90% of consumers say an online review is more important than input from a sales professional
Consumers experience olfactory fatigue after smelling 4–5 fragrances in-store, making informed decisions nearly impossible

OUR VISION: PROJECT "AURA" – INTELLIGENT SCENTS FOR A HARMONIZED SELF

- WE INTRODUCE THE SCENT INTELLIGENCE LAYER (SIL): A REVOLUTIONARY AI-POWERED ECOSYSTEM THAT EVOLVES WITH YOU, CURATING FUNCTIONAL FRAGRANCES DESIGNED NOT JUST FOR ALLURE, BUT FOR EMOTIONAL WELL-BEING.
- TAGLINE: YOUR SCENT DNA. YOUR WELLNESS RITUAL. YOUR L'ORÉAL LUXE.
- INTEGRATING NEURO-MAPPING & BIO-AESTHETICS FOR A NEW ERA OF PERSONAL CARE.

4–5

FRAGRANCES TESTED BEFORE
olfactory fatigue sets in

The in-store experience sabotages itself. By scent #5, your nose can't tell the difference.

36%

OF CONSUMERS WANT TO
experiment — but lack the tools

45% repurchase the same 1–2 scents not out of loyalty, but because discovery is too hard.

75%

OF FRAGRANCE SALES
still happen in-store

Scent remains the only beauty category you can't digitize — the biggest opportunity gap in luxury.

The community exists at massive scale. No luxury house has built a home for it.

THE FRACTURE

Intelligence Meets Intuition

THE AURA ECOSYSTEM

THE VISION:THE UNIFIED SCENT DNA

Our AI doesn't just "guess"; it maps your identity. Whether you are solving a mood or searching for a signature, AURA adapts to two core consumer paths:

- **The Wellness Path (Functional):** For the consumer using scent as a tool. We use Neuro-Mapping to identify notes that combat anxiety, boost focus, or aid sleep. It's your "Olfactive First Aid Kit."
- **The Identity Path (Aesthetic):** For the "fragrance-lost" consumer. We bypass confusing industry jargon (Chypre, Sillage, Top Notes). Instead, we use lifestyle inputs—your music, your fashion, your dream travel destination—to curate a daily signature that feels like "you" before you even smell it.
- **The Result:** A living profile that evolves. It knows your "Monday Morning Focus" scent is different from your "Friday Night Power" scent.

"AURA SERVES THE DUALITY OF THE MODERN CONSUMER:"

1. **THE SEARCH FOR SELF:** Solving the 'Blind Buy' problem for those who want a signature scent but don't have the vocabulary to find it. We translate lifestyle into Liquid Identity.
2. **THE SEARCH FOR SOLACE:** Solving the 'Mental Wear' problem for those seeking emotional regulation. We translate Neuro-science into Functional Fragrance.

THE FIX

SCENTCIRCLE — THE FIRST COMMUNITY PLATFORM BUILT AROUND FRAGRANCE IDENTITY. USERS CREATE A SCENT DNA PROFILE BASED ON THEIR PREFERENCES, MOODS, AND WHAT THEY ALREADY OWN. THE APP THEN CONNECTS THEM WITH OTHER USERS WHO SHARE SIMILAR OLFACTIVE TASTE THROUGH THESE CONNECTIONS, USERS DISCOVER NEW FRAGRANCES THEY'D NEVER HAVE FOUND ON THEIR OWN, EXPLORE CURATED RECOMMENDATIONS FROM PEOPLE WHO GENUINELY SMELL LIKE THEM, AND SHARE LAYERING COMBINATIONS AS COMMUNITY "RECIPES" OTHERS CAN TRY AND RATE.

A SCENT SCHOOL USES AI TO GRADUALLY EDUCATE USERS TEACHING THEM TO DISTINGUISH NOTES, UNDERSTAND FRAGRANCE FAMILIES, AND ARTICULATE WHAT THEY LOVE. OVER TIME, YOUR TASTE EVOLVES FROM CASUAL WEARER TO INFORMED ENTHUSIAST. IT'S NOT A SHOPPING APP. IT'S A PLACE WHERE FRAGRANCE BECOMES A SHARED LANGUAGE.

THE CARRY CORE — A MAGNETIC MINI TRAVELSIZE BOTTLE (5-8ML) THAT LIVES INSIDE THE MAIN BOTTLE. NO MORE RISKING A €150 BOTTLE IN YOUR BAG, THE FRAGRANCE GOES WHERE YOU GO BUT IN A MINI PACK

THE HARDWARE: THE AURA SCENT-SYNC BRACELET

- **The Ritual of Application:** A high-fashion, refillable wearable that houses your Scent DNA.
- **Precision Refills:** Users receive personalized "Aura Pods" based on their profile.
- **The Action:** A discreet touch-release for the wrist and neck. Whether you're applying a dose of calm before a meeting or a splash of confidence before a date, the bracelet makes luxury portable and purposeful.

• L'Oréal for the Future (Sustainability):

Direct alignment with 2030 targets by eliminating single-use glass and reducing packaging intensity by 20% through a circular, 100% refillable pod system.

• The "Neuro-Luxe" Business Model:

Transitioning from one-time transactions to a high-margin, recurring revenue subscription for personalized Scent DNA pods, increasing Customer Lifetime Value (LTV) by an estimated 30%.

• Inclusivity by Design:

A culturally neutral, AI-driven interface that ignores gendered marketing and Western scent jargon, democratizing luxury fragrance for emerging global markets and diverse emotional needs.

The Strategic Roadmap

DRIVING GROWTH THROUGH FUNCTIONAL LUXURY

Pillar	Innovation	Business Impact	L'Oréal 2030 Goal
Consumer Experience	AI Scent DNA: Moves discovery from "Blind Buying" to data-driven precision.	+30% Conversion: Higher confidence leads to 8-10% online conversion rates.	Consumer Empowerment: Informed, tech-led choices for 1.5B consumers.
Product Ritual	The AURA Wearable: A silver "Leafy" bracelet with a refillable micro-vial.	Subscription Revenue: High-margin recurring revenue via "Scent Pod" refills.	Refillable Future: 100% of luxury products to be refillable by 2030.
Mental Wellness	Neuro-Mapping: Uses Aromachology to solve anxiety and focus.	New Market Category: Captures the booming "Functional Fragrance" segment.	Positive Social Impact: Beauty that supports cognitive and emotional health.
Sustainability	Circular Pods: 100% recycled or bio-based aluminum/glass pods.	-20% Material Intensity: Drastically lower shipping and packaging costs.	Virgin Plastic Zero: 100% recycled/bio-based plastic usage by 2030.

“PROJECT AURA: REINVENTING THE LUXURY FRAGRANCE RITUAL INTO A DATA-POWERED TOOL FOR EMOTIONAL WELLNESS AND IDENTITY. BEAUTY THAT DOESN’T JUST LOOK GOOD, BUT MAKES YOU FEEL GOOD.”

COMMITMENTS TO L'ORÉAL FOR THE FUTURE

100% Circular Ecosystem

Eliminating virgin plastics through a fully refillable architecture. Every AURA pod is crafted from 100% recycled or bio-based materials, hitting L'Oréal's 2030 targets ahead of schedule.

Decarbonizing Luxury

AURA's micro-pod system delivers a 20% reduction in packaging intensity compared to traditional 100ml glass bottles, significantly lowering our carbon footprint per spray.

THE "AURA" RECAP

- Intelligent Discovery:** We replace the "Blind Buy" with a data-driven Scent DNA that evolves with the user.
- Functional Beauty:** We bridge the gap between luxury and mental wellness, using Neuro-Mapping to solve for anxiety and focus.
- The Wearable Ritual:** We introduce the AURA Bracelet, a silver leafy-design vial that turns fragrance into an on-demand emotional tool.
- L'Oréal 2030:** A high-margin, refillable ecosystem that drives Circular Luxury and recurring revenue.

THE "EMOTIONAL HOOK"

- "Think back to the 10 billion views on #PerfumeTok. These consumers are searching for more than just a scent; they are searching for a language to express who they are and how they feel."
- "Project AURA gives them that language. It transforms L'Oréal from a beauty provider into an Emotional Infrastructure."
